Hi. I'm going to try this
A journal, I guess
I shot some videos in Niger
but mostly of my friends and
the village and....
this is going to be something
for you and for me
I can't wait to see you
I hope this works out and
I hope you'll like me...

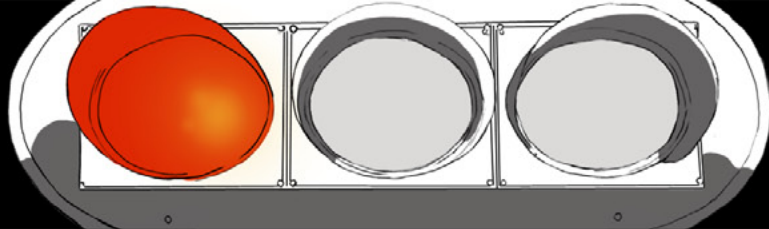

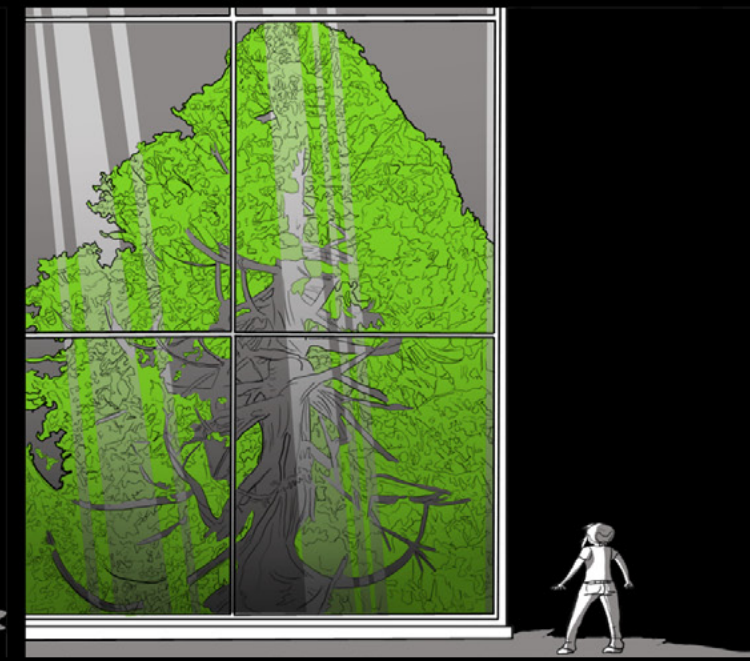

I see this city again
and I don't know it
I see these people,
these reflections and
I feel I should know
them but I don't.
I want this to work
I want to feel
at home again

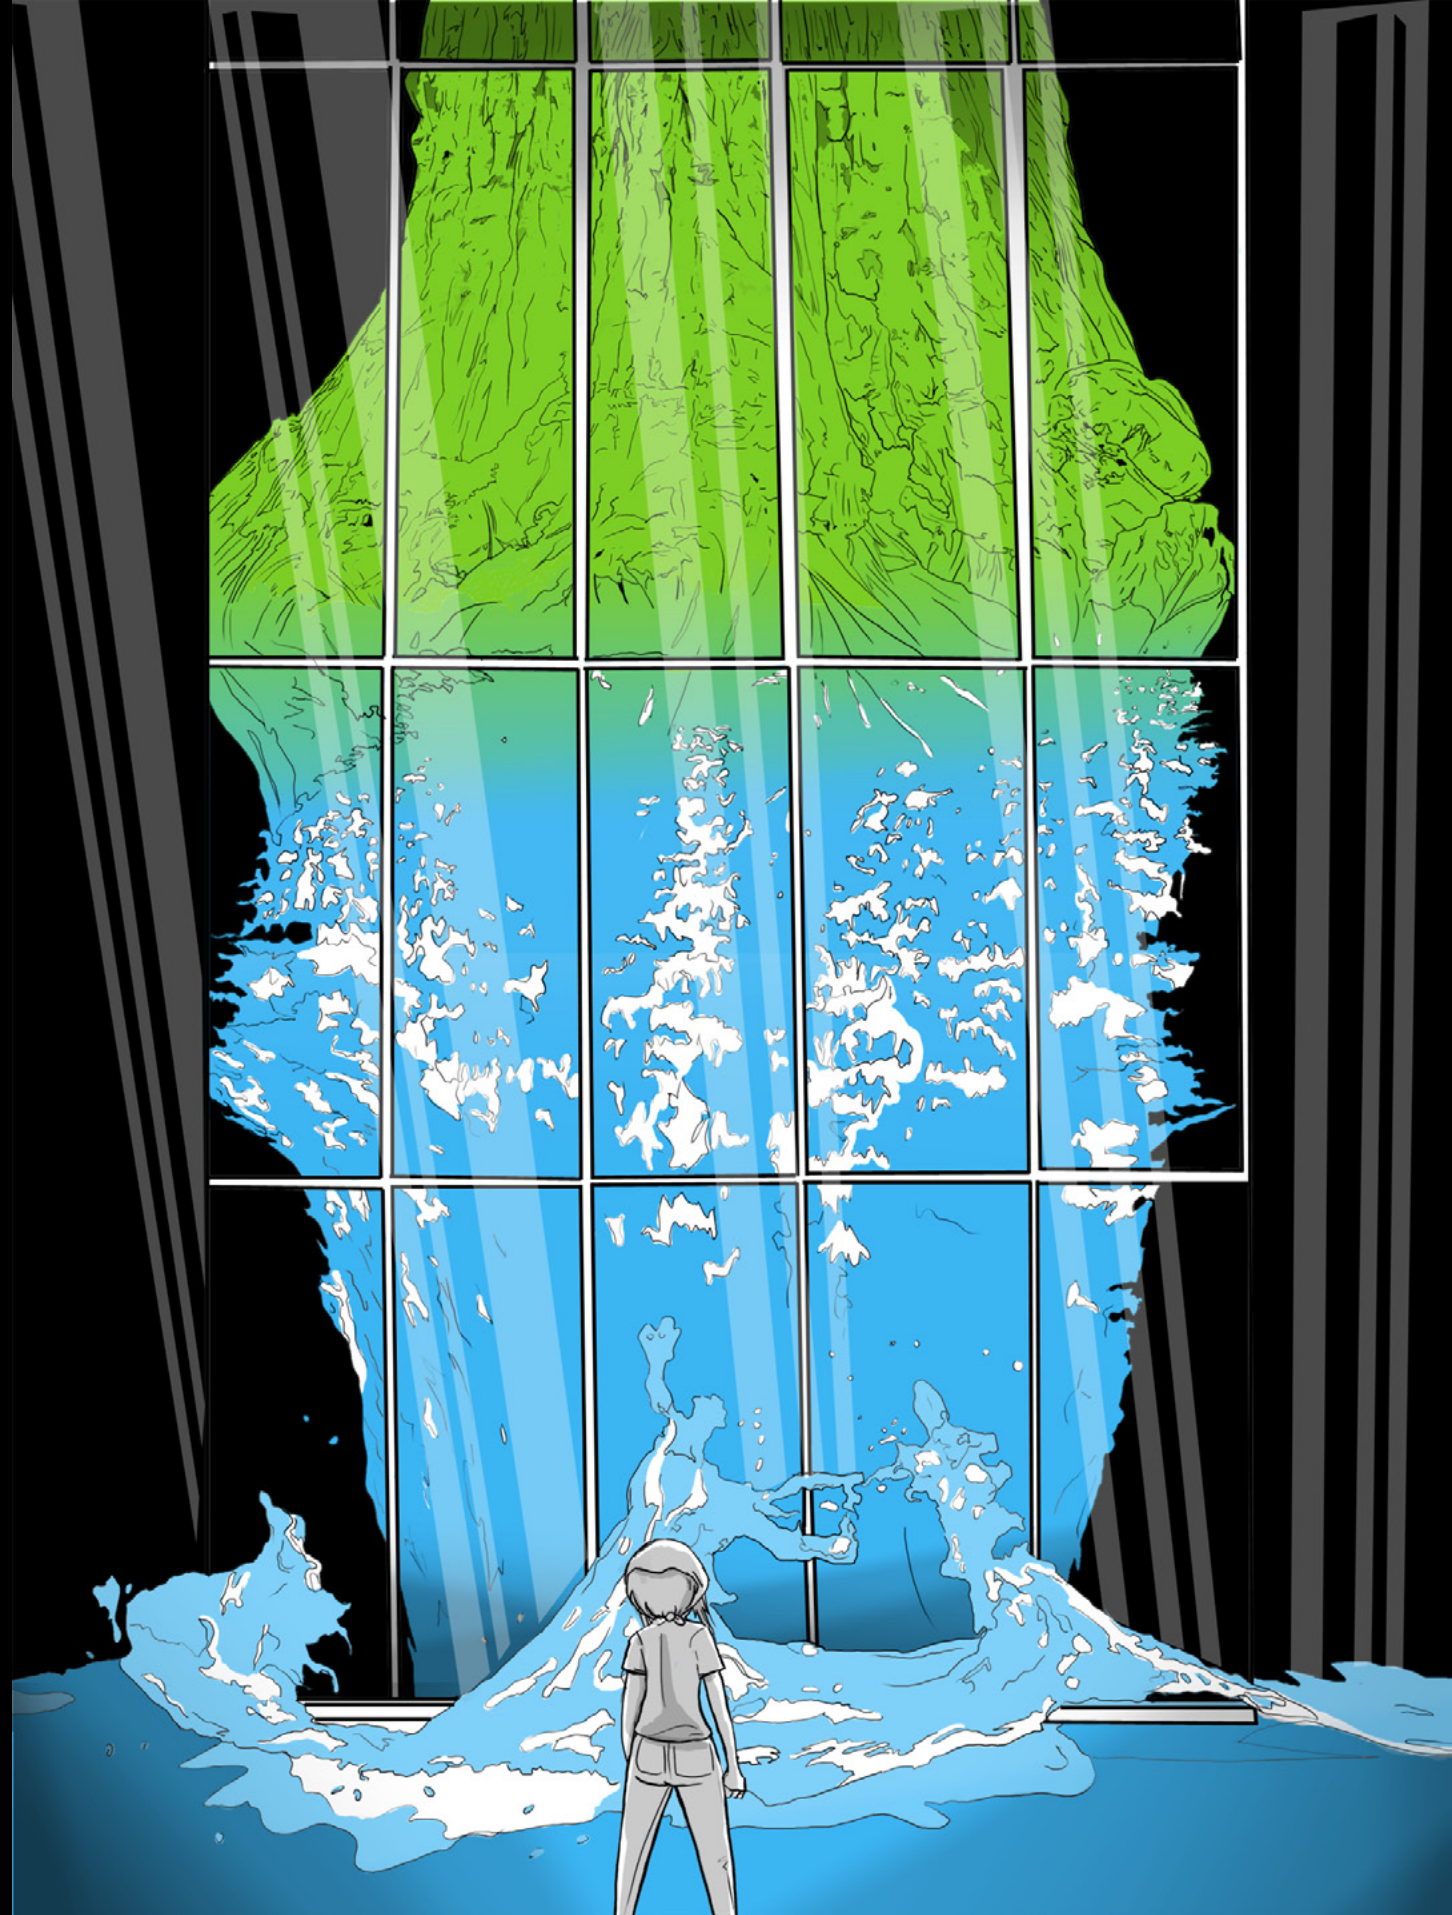

I want
so many things...
